Issues raised in Feedback

- Making Rig Reviews not a distraction from driving

- Incentivizing Drivers/Trucking Companies to use Rig Reviews

How we are Addressing Feedback

- Distraction:
  - Interface is simple and tries to autofill license plate, we are targeting the passenger, and we have a website for home use

- Incentivizing Use:
  - Incentive is user-driven at this point: Drivers gain an outlet for frustration, and trucking companies gain an understanding of drivers. Truckers gain information.
